

DUNE 5

The newest Co.fe.mo base: DUNE 5

We are pleased to present the last born in the **DUNE** bases family: the **newest chair base DUNE** - exclusively designed for **Co.fe.mo** by "Baldanzi & Novelli designers" is now available also in the plastic version.

DUNE - characterized by a unique and clean design - was first introduced in the market in the aluminium version (5-star and three different kinds and sizes in the 4-star models); now **Co.fe.mo** has completed the **Dune** family by adding the 5-star version in plastic, so as to be extremely versatile and suitable for all kinds of task chairs.

Its contemporary design represents the unquestionable "plus" of **Dune**, one of the most appealing products in the off-the-shelf portfolio of **Co.fe.mo**.

Follow up NeoCon 2018

NeoCon

As long tradition, this year **Co.fe.mo** has confirmed its participation in **NeoCon** in **Chicago**, the most important show in the NA market for the furniture and design world.

Co.fe.mo has renewed its presence as an important partner in the office components manufacturing, launching brand new products which have risen consistent interest by the most important worldwide furniture groups.

Co.fe.mo wishes to thank all customers and visitors for their warm participation and strong interest in the products and services offered by our company.

See U in Chicago for NeoCon 2019!
