COFEMO INDUSTRIE NEWS **N°4**

JULY 2011

Online newsletter periodically informing our commercial partners about the news and events regarding Cofemo Industrie srl

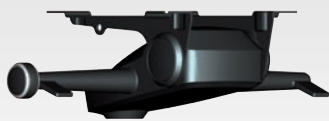

INTERNATIONAL EXHIBITIONS

INTERZUM 2011 and NEOCON 2011

Despite the present uncertainty of the global economy Cofemo received a good feedback both from Interzum and Neocon exhibitions. Our industrial strategy and new products obtained the approval and the interest of the main American and European brands and strengthened the success of our company in 2011.

NEW PRODUCT

TS70 SIDE TENSION MECHANISM - TILT AND SYNCHRON

The TS70 is our latest mechanism conceived for executive chairs, meeting rooms and high end task chairs.

Its modern design looks elegant and refined. It is available both in the tilt (up to 16° seat tilting) and synchron (25° back and 17° seat tilting), and grants a very good price/quality ratio.

CERTIFICATION

COMPOSITION AND RECYCLABILITY PRODUCT CHART

With the aim to offer our customers the best service in terms of environmental commitment Cofemo obtained in 2011 the "Integral Environmental Authorization" as per the rule no 152/2006 related to the water/air emissions and all the industrial scraps.

On top of that Cofemo can provide the technical specifications for all their products, giving complete information about the raw materials used and the related recyclability features.

COMMUNICATION

THE NEW CATALOGUE

On the occasion of the recent exhibitions we have issued our new catalogue both in Italian and English. It is also available on our web site and easy to be downloaded in .pdf format.

The updated and modern graphic layout makes our company information spread easier in terms of clear images of the main products and location.

For any further and more in-depth technical details the web site can be a very useful instrument.

"A NOTE FOR YOUR DIARY":

COFEMO INDUSTRIE srl will shut down from the 8th through the 26th of August 2011 for their annual Summer holidays.

Have a nice vacation!
